Daniel Burgoa

Software Developer | Data Analysis & Business Automation

TypeScript · React · Next.js · Astro · Python · SQL

Medellín, Colombia

GitHub: github.com/iamFear

PROFILE

Software developer with more than five years of experience across technology and operations, including extensive e-commerce work with Magento and Shopify. I build websites and web applications with TypeScript, React, Next.js, and Astro, analyze data with Python and SQL, and automate workflows. I work with clients to scope projects around operational needs and business goals.

TECHNICAL & BUSINESS SKILLS

Web Development: TypeScript, React, Next.js, Astro, HTML5, CSS, Web APIs, Responsive Web Design, SEO
Data Analysis: Python, SQL
Business: Workflow Automation, Product Development, Operations, Project Management
Languages: Spanish and English

PROFESSIONAL EXPERIENCE

Software & Technology Leadership

Aug 2026 - Present

- Define software solutions, set technical direction, and oversee product development.
- Build client relationships, identify business opportunities, and scope projects around clients' operational priorities and long-term goals.

Operations Associate & Business Analyst | The DJ Hookup

Jul 2022 - Aug 2026

- Coordinated daily logistics operations and managed communication with carriers.
- Analyzed data to guide catalog decisions and develop strategies to improve company-wide performance.

SELECTED PROJECT

AI Prospecting Skill | Personal Project
Built a reusable AI agent skill that researches 10 potential clients and 5 potential partners per run, verifies sources, drafts personalized outreach, and tracks past results to avoid duplicate prospects.

EDUCATION

Systems Engineering | Universidad EIA
Completed one year of undergraduate coursework.
